

Generate 2022 Student Poster Competition

Clean Energy BC is seeking student applications for a poster board competition during the annual Generate 2022 conference from May 2-3 for a chance to win one of two \$500.00 prizes!

Setting:

Students will present their research in a poster board format during the conference to delegates and judges. Poster boards will be set up at various locations on the Trade Show Floor and students are expected to answer questions from the judges and attendees.

Poster Size:

Students are limited to 8' wide x 4' high poster boards (not provided by CEBC) to display their research.

Categories & Eligibility:

There are two levels of competition:

- Undergraduate
- Graduate

The winners at each level will be awarded a prize of \$500.00. Winners will be recognized on the second day of the conference (May 3, 2022).

Both ongoing and complete research is accepted and students within one year of graduation from a program are eligible to apply. Students who participate in the competition will receive complimentary conference registration on Tuesday May 3, 2022.

Research Topics:

Clean Energy, Renewable Energy, Alternative Energy, Energy Technology, First Nations Initiatives, Rural Development, Climate Change, and Electrification.

Application Deadline:

March 28, 2022

Competition Location & Date:

Marriott Pinnacle Vancouver; Monday, May 2 – Tuesday May 3, 2022
